I händelse av delade placeringar på de främsta platserna skriver Sporting Code (2006):

A fly-off in which the realism of flight is the determining factor (marked to section 6.4.5.) will be held, if necessary, to break ties in the final placing of the leaders.

In the event of a tie, places shall be decided by referring to the Appearance score, followed if necessary by reference to the flight scores, comparing first flights, then the second flights.

If there is still a tie, then places will be decided by a duration fly-off.
